

St Jude's Online Safety Newsflash

Thank you to our parents who attended the Online Safety workshop last night...

It was great to hear such positive feedback about the workshop on Thursday 5th October. The CLC will give us their presentation and useful links for websites to support us in keeping our children safe. To be uploaded on to our website shortly.

Online Safety Top Tip of the Week

Talking to your child - openly, and regularly - is the best way to help keep them safe online.

You might find it helpful to start with a family discussion to set boundaries and agree what's appropriate. Or you might need a more specific conversation about an app or website your child wants to use or something you're worried about.

Talk about what might be OK for children of different ages. Ask your child what sites or apps they like. Write a list, and look at them together.

Be positive about what you see, but also be open about concerns you have: "I think this site's really good" or "I'm a little worried about things I've seen here".
