

One Small Step - Space

Links

Year 1 - maps mastery - topographical features of different areas.

We learned how to order events chronologically.

Year 2 - Explorers - comparing geographical features of different locations

Year 3 - living in London - human and physical features of London.

Year 4 - using a range of sources to learn about the past.

Key Knowledge - One Small Step

During the cold war, the Soviet Union and America competed with one another about who could develop the best technology to advance the mission into space.

Space stations are built in remote locations to ensure that they are not interfered with and to make sure that they are not disruptive to people and animals.

Soviet Union Flag

USA (America) Flag

Key Vocabulary

NASA - National Aeronautics and Space Administration

Topographical - the study of space and features of land surfaces

Geographical - the physical features of an area

Russia - a country in Europe

USSR - Union of Soviet Socialist Republics/ the Soviet Union (now Russia)

Chronological - when events are ordered from the earliest to the most recent

Primary source - a source of information that came from the time

Secondary source - a source of information that was created after it happened

Space race - when the Soviet Union and America competed to get the first person on the moon

Cold war - when different countries had nuclear weapons which they were threatening to use on each other
