## Key Skills:

*Compare* - say what is the same and what is different about something.

*Analyse* - examine or look at or investigate something in detail.

## Key Knowledge:

### Reasons for deforestation

*Cattle ranching*: trees are cut down so that cattle can graze and later be turned into food for the meat industry.

*Demand for resources*: people want resources that are grown in the rainforest such as palm oil and cocoa beans.

*Urban expansion*: towns and cities nearby are growing. They need resources and space to build into.
