Now in its fifth year, the Young Artists' Summer Show is a free, open submission exhibition for students aged 4 - 19 in the UK. Artworks are judged by a panel of passionate artists and arts professionals, with selected artworks displayed online and on-site at the Royal Academy of Arts.

Students are invited to take part and to bring their artwork in to school for a special St Jude's exhibition. All the information can be found on the letter sent home this week and on your child's Google Classroom.

What has Year 5 been up to?

This week in our science lessons, year 5 have been investigating gravity and air resistance. Last week we conducted an initial investigation by dropping pieces of paper in different shapes and sizes and noting down how strong the air resistance was by how slowly they dropped. We used these results to inform our learning this week. We created parachutes and contraptions, which maximise air resistance to protect our snap cubes from breaking when they hit the ground dropped from a height.

What has Year 5 been up to?

In RE this half term we have been learning about Hinduism. We learned that Hindus have one God called Brahman represented by the Aum symbol. All other Hindu Gods and Goddesses are avatars or different representations of Brahman. We learned that Brahman has three main parts – Brahman the creator, Vishnu the preserver and Shiva the destroyer (known as the Trimurti). We created artwork to represent this, one tree with many branches, for example.

In our maths lessons this week, we have been using a range of methods to multiply two numbers together. We used expanded formal method and partitioning as well as non-expanded formal method and mental strategies.
