

There's no place like home!

Key Knowledge and Vocabulary

All objects are either living, dead or have never been alive. Living things are plants (including seeds) and animals. Dead things include dead animals and plants and parts of plants and animals that are no longer attached e.g. leaves and twigs.

Habitats - provides the basic needs of the animals and plants of shelter, food and water. It somewhere the plant or animal is suited to.

Microhabitat - a very small habitat where minibeasts live

Food chain - how animals get their food. Food chains show how animals depend on one another.

Links

Reception - we drew pictures of animals and plants. We also learnt about the four seasons.

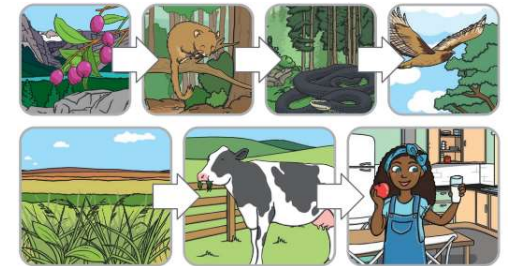

Year 1 - we learnt about the different types of wild and garden plants as well as identifying different animals in the animal groups.
