

# Our wonderful world

## Key knowledge

Krystina Pearson-Rampeearae  
Flight systems engineer

Follow the QR code to find out more about what Krystina does.

Krystina is a flight systems engineer and works on a range of aircrafts. She comes up with different ways of making aircrafts more sustainable and therefore better for the environment resulting in a limited impact on animals and their habitats.

## Key vocabulary

*pollution* - the presence in the environment of a substance which has harmful or poisonous effects.

*deforestation* - the action of clearing a wide area of trees

*habitat* - the specific area or place in which particular animals or plants may live

*sustainable* - the distinguishing features or qualities that are specific to a species

*impact* - an effect or influence something has over something else

*engineer* - a person who designs, builds, or maintains engines machines or structures

*aircraft* - an aeroplane, helicopter or other machine capable of flight

### Links:

In Reception, we explored mini beasts in their habitats.

In Year 1 we classified animals into mammals, birds, fish and reptiles.

In Year 2 we learnt about what plants need to grow.

In Year 3 we learnt about life cycles of plants
